

## Проект

"Зміцнення спроможності галузевих асоціацій до аналізу політики дерегуляції і розвитку саморегулювання у сфері безпечності і якості аграрної продукції"

## Звіт за 3 етап

### Пункт 3.1.

Встановлено діалог з групою реформування Спільної аграрної політики ЄС

Групою проекту з міжнародного досвіду підготовлено проект листа до групи реформування Спільної аграрної політики ЄС наступного змісту:

Dear Ms. Robin,

Greetings from Ukraine!

I am a representative of NGO Analytical Centre of Agricultural union of Ukraine. Our NGO in cooperation with 7 branch agricultural associations drafted a concept of sectorial associations development based on self-regulation. This concept was created within a framework of the Project named "Strengthening of the Sectorial Associations Capacity to Analyze Deregulation Policy and Development of Self-regulation in the Field of Safety and Quality of Agrarian Products", supported by The USAID-funded project AARD, is the first attempt to resolve the issue of the sectorial self-regulation introduction in the agrarian sector of Ukraine in a way that is different from the adoption of the law.

The concept captures the principles, organizational and financial mechanisms of sectorial self-regulation development, which is realized with direct involvement of sectorial associations, and offers them for use by sectorial associations. A consensus formation around the proposed document will contribute to the increase of the products safety and quality of the Ukrainian manufacturers, strengthening their authority on domestic and international markets.

Now we are conducting final stage of the project implementation discussing a concept of sectorial associations development based on self-regulation and we would like to establish mutually beneficial dialogue with the group of experts which participate in reforming of EU Common agricultural policy. We kindly ask you to provide us with such contacts.

Best regards

Sergiy Shcherbyna,

Coordinator of the working group on the adaptation of international experience in the agrarian sector of the

NGO Analytical Centre of Agricultural union of Ukraine.

Пані Ларисо,

направив листа на прес секретаря Президента Європейської комісії, відповідальної за аграрну та сільську політику ЄС. Сподіваюсь, що вона допоможе нам встановити контакти з групою реформування САП ЄС.

З повагою  
Сергій.
